Practical AI implementation, with a return you can see

I put AI where it genuinely pays off. Through **training, audits and advisory**, I help companies work faster, cleaner and smarter. My bias is towards **practical implementation and results you notice immediately**, no theorising, no chaos, concrete business value.

The rule of thumb: if it can be done with configuration, I do it. If it needs code, engineers and a signed SLA, Yameo builds it and I stay on as the person who owns the outcome.
