# Who I am

I'm **Daniel Nowak**. I fix how revenue and operations actually run, and then apply AI where it compounds.

I didn't arrive at AI from engineering. I arrived from operations: eighteen years of them, thirteen spent running restaurants, conference floors and hotel F&B departments in Poland and Ireland. In that world a broken process isn't a slide in a deck. It's a room full of people waiting for their food, and you find out within the hour.

That taught me the thing I still sell today: **the bottleneck is almost never the tool. It's the handoff.**

I do that work independently through DNA4Digital, and as **Associate Partner at Yameo** (a Dutch-Polish enterprise software house) when a client needs the system built as well as designed.

My story | How I work | What I do

**#1**

revenue team in EMEA, Google Customer Solutions

**5×**

increase in funnel engagement

**30%**

cut in ticket handling time

**+20–40%**
faster processes once the work is organised

**Credentials:** Lean Six Sigma Black Belt · Machine Learning with Python (V2) · Web Development · BA Economics (Wyższa Szkoła Finansów i Informatyki, 2026)
Daniel Nowak is an Associate Partner at Yameo B.V. Where a client engagement leads to software delivery by Yameo, I have a commercial interest in that work. I'll tell you that in the first conversation, not the fifth.

## Ready to give technology some meaning?

Book a free 30-minute call. I'll tell you where I'd start, and whether the first move is an audit, a pilot, or simply writing down how the work is supposed to happen.
